

PRICE LIST

from 1st April 2020

Our price list is structured in sections to give you a clear view of the potential steps in your treatment and the associated costs, to allow you to make informed financial planning.

Payment for consultations, blood tests and investigations will need to be settled prior to or at the time of these appointments.

You will be required to pay the full cost of the treatment prior to your nurse planning appointment.

STEP 1: CONSULTATION AND INVESTIGATIONS

Before we can recommend a treatment pathway you will need to have a consultation with a doctor and may need a combination of investigations. This will allow us to plan the best treatment journey for you.

Initial Consultation with scan	£225
Pre Initial Consultation blood package (female)	£150
Couples Fertility Assessment (AMH, Semen Analysis and Ultrasound, Hycosy and Initial Consultation)	£665
Female fertility Assessment (AMH, Ultrasound, Hycosy and Initial Consultation)	£575
Semen Analysis	£150
Counselling per session (included in most treatment packages)	£100

STEP 2: TREATMENT PACKAGES

Below you will find our treatment packages, which will form the base of your fertility treatment. Each treatment package includes:

- nurse planning appointment
- counselling
- HFEA fee
- blood tests for HIV, Hep B and Hep C
- monitoring bloods and ultrasound scans during the treatment cycle
- 1 review consultation or early pregnancy scan

Prices for Pre-Implantation Genetic Testing are available on the Genetic Testing price list.
